

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is a statement of reasons for the indication of allowable subject matter:

Previous systems analyze web services in which can be accessed from applications within a corporate firewall, enabling the web service to outside users such as discussed Venkatapathy C et al. ["Introduction to Web Services Gateway", May 2002]. Venkatapathy teaches a method for a web services gateway [run-time component] to enable a web client based on WSDL documents being in recognizable format to the web client to access a web service [see pages 1-5]. However, there is no prior art that teaches or suggests a method as in claim 1 that includes the details of how to communicate with the web service via the gateway include a RNIF/HTTP channel address being associated with b2b profile in the gateway for the client to use when requesting to access the web service, in addition to the rest of the claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BARAK NISSAN whose telephone number is (571)-270-3632. The examiner can normally be reached on Mon-Thurs 7:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew Caldwell can be reached on (571)-272-3836. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-4000.
